A wonderful stream, is the river Time, As it runs through the realm of years, With a faultless thyme and a musical chime, And a broader sweep and a surge sublime, And blends with the ocean of tears.

There is a musical isle of the river Time. Where the softest airs are playing; There is a cloudless and a tropical clime, And a song as sweet as a vesper chime, And the tones with the rose are straying.

And the name of the Isle is "Long Ago," And we bury our treasures there-There are brows of beauty and bosoms of snow, There are heaps of dust-but we loved them

There are trinkets and tresses of hair. There are fragments of songs that nobody sings, And a part of an infant's prayer;

There is a lute unswept and a heart without strings, There are broken vows and pieces of rings, And the garments she used to wear.

There are hands that waved, when the fairy shore By the mirage is lifted in air — And we sometimes hear, thro' the turbulent roar, Sweet voices we heard in the days gone before, When the wind down the river is fair.

Oh! remembered for aye be the blessed isle, All the day of life till night; When the evening comes, with its beautiful smile.

And our eyes are closing in slumber awhile, May the Island of Souls be in sight!

HOMES FOR ALL THE AVERIOAN EMISTRANY ATD AND HOMESTEAD COMPANY, having its headquarters in the City of New York, has been organized for the sole and definite purpose, of collecting information from all parts of the country wherein desirable lands may be had at low prices, and commending, those lands to the attention and favor of all who may be induced to purchase or improve them. It has been effectly perfecting its arrangements and correspondence for more than a year past; until it is now ready to other to settlers a range for selection embracing more than One Million Acres of cheap will lands, with same improved farms, mainly in the States of Virginia, Pennsylvania, Tennessee and Missouri; and it will soon extend its operations into other States.

States.

To immigrants from Europe, to the energetic young men of our compactly settled States and sections, to the hives of mechanics and laborers who throng our cities and live in constant and reasonable dread that panic or pestilence, war, revulsion, or some alteration in the channel may, at any moment, descrive them of employment and their familles of bread, we say, resolve now, while you may, to

may, at any moment, denrive them of employment and their families of bread, we say, resolve now, white you may, to seek a home where such perils are unknown.

We mean to sell lands, as well as negotiate for purchasers with those who have large tracts for sale, in every part of the Union; but our attention is more specially directed to the neighboring States—Virginia, Kentucky, Tennessee, and Missourt. Visoixia especially proffers at this time remarkable inducements to immigrants. Her climate is temperate and genial—the Peach, the Apple; the Pear, the Grape, alike thrive in it—it is far better and more desirably Timbered than almost any new State; its navigable rivers and innumerable, available streams, water-power, and profusion of the most valuable minerals—Coal, Iron, Salt, Copper, &c., are unsurpassed; the State has expended large sums in constructing Canalis and Ralirons's across its entire breadth, which place almost every county within a few hours' ride cither of its seaports or of the great inland cities of Cincinnati, Pittsburgh, Whisching, Louisville, &c.; yet fertile, inviting land, whether improved or new, is far cheaper this day in the Mother of States, than it is in Minnesota ov Ore, covered with choice Timber, and excellent allke for Grain and Grass, Fruit and thoots, be obtained so cheaply as in Old Virginia; while to men of considerable means we can sell good farms almost within slight of Washington City for less than the fair cost of the improvements.

The TABLE LANDS of EAST TENNESSEE present some

The TABLE LANDS of EAST TENNESSEE present some of the most law ting fields for industry and enterprise on this Continent. The climate is satubrious and healthful. Its soil is adapted to all Agricultural pursuits. Its unimproved Lands ase covered with useful Timber, or present natural openings, and Meadows producing nutritious Grass. The farmet can have his products on shipboard in 30 hours and can buy his Groceries, Dry Goods, etc., at home, as cheap as any one in New England. Yet, we can self him good Lands, with perfect titles, at from one to three dollars per acre. A word as to the single objection which has kept these lands so long uncultivated, and which now keeps them in market at a bare fraction of their infrinsic value—that of Slavery. This Campany has only to deal with any institution as a substaine fact, over whose existence or character it has no control. But we say in all confidence to intending settlers, Slavery in Virginia need not and should not serve longer as a hindrance to settlement on your part. That grand discovery of our age, Concarred limination; practically disposes of it, so far as you are concerned. Let heads of families, including farmers, mechanies, millers, &c., take counsel together and resolve to seek new and more eligible homes in company. Let them, clubbing their means, send two of their lumber to look at such lands as we are prepared to sell them. Let these delegates, after a sufficient scrutiny, buy from five to twenty thousand acres in a body, embracing all the good points they require, then let them survey the whole into farms and lots of convenientsize, and put these up at auction to the highest bidder, whether a member of the company or not. Each member will, of course be entitled to a return in land or money of the sum previously contributed by him to the company's funds, and to his proportion of any profit realized from the fransaction. Thus, the Company will form a sort of spontaneous township, with its roads, bridges, stores, schools, church, &c., substantially after the New England pritera.—Such a location may easily be made—such already, in fact, exists in every county of Virginia above tide-water; and into such a one. Stavery will have neither pretextion desire to enter. The city of Wheeling, the Quaker portion of Loudoun County, not to speak of new experiments, fairly exemplify the law we here ind

This DELICIOUS TONIC especially designed for the use of the Manual Profession and the Family, possesses those intrinsic medicinal properties (Tonic and Dirretic) which belong to an Old and PURE GIN. The business of manufacturing spurious gins, and offering them as beverages, under the titles. "Avonatie,"-" Cordial,"-" Medicated," etc., has become so common, that the publie are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute. It-has remained for our house (established in UWS) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation - founded upon eighty years of experience - abundantly

via lientes our claim to public confidence. A commission of "Bininger's Old London Dock Gin" with others bearing similar names, will establish its operating, and make other Caution unnecessary.

DYSPERSIA.

A young lady of 28 had been troubled with indigestion for several months, so as to render great care necessary in the selection of her food. After eating, the stomach became acid, food rising in her mouth with water, and an unpleasant, heavy, load-like sensation in her stomach, continuing for own hours, frequent headaches, bowels constituted and a depressed mental condition. See commenced taking the Dyspepsia Pills, one morning and night, and in less than a week almost every symptom of her disease had vanished, and she felt like a new being.

A gentieman somewhat advanced in years, strong, robust constitution, had lately been a good deal affected with indigestion, weak stomach, context tongue, had taste in the mouth and attended with a peculiar vertigo and whirling in the head, so much so as to render his riding in a carriage, or even mounting an eminence, quite dangerous. After trying several things ineffectually, he fell upon the Dyspepsia Pills, which afforded prompt relief. A pill every night and morning works like a charm, relieving all his vertigo and other analysis and several considerations.

without them.

A married lady of 40 had taken a violent cold, which settled on her lungs, causing severe cough, pain in the side and considerable fever and hoarseness. Such colds were ugunlly very lasting and troublesome; but by taking the Specific Cough Pills, four times per day, in three days she was en-

tirely well.

A young man of 22 had a cough and hoarseness for fifteen months. During cold weather his voice was lost so as only speak in whispers, pain induced on coughing, cold dry or reising only a trifle in the morning, quite feeble and emandated. Had taken several medicines with but little or no benefit, it commenced with the Cough Pills—one pill three times per day—and soon found himself improving, his cough milder and softer, hoarseness passed off, strength and uppetite improved, and in a few weeks was entirely well having taken no other medicine. PILES.

A clergyman of the Baptist Church, well known in Illine's writing to us, says: "I have been for some time seriously afflicted with bleeding piles; and have regarded my case as a severe one—at one time, indeed, hopeless; but I have used your medicine (Pile Specific), and am cured. I have no doubt you are laying the world under great and lasting obligation.

doubt you are laying the world under great and fasting obligation."

A gentleman of afty years, well and favorably known at Colhi, Delaware county, New-York, had been a marty to the piles for twenty years. Sometimes from excessive hemorrhage, pain and suffering, he was reduced to the verge of the grave. For years he had dragged out a miserable existence, a confirmed invalid, disqualified for any business, rul life almost a burden. It is needless to add that he had tried all sorts of remedies, from all sorts of doctors, to little purpose. He consulted me two years ago, and I recommended our Pile Specific, with, occasionally, a Dyspepsia Pill.—From this he began to improve, and since has never had a serious turn of piles. From the first month up to a year past he had occassionally symptoms of his old complaint; but a few doses of the Pile Pills would disperse tail, and for more than a year past he has been entirely well of the piles. A more brilliant cure is scarcely to be found in the annals of medicine.
